Are You Interested in the Salvation for the Dead?

This doctrine is the burden of the scriptures and is made obligatory to the Saints. Said the Prophet Joseph Smith, "Those Saints who neglect the salvation of their dead, do so at the peril

of their own salvation, for we cannot be saved in the Kingdom of God without our dead relatives who died without a knowledge of the Gospel; and they cannot be saved until the ordinances are performed by us in their behalf, in the temples of the Lord, according to the plan instituted by our Redeemer in the heavens before the foundation of the world was laid." Therefore, it behooves each of us to gain our own salvation by performing these ordinances in behalf of our dead.

**What Are You Doing in
Behalf of Your Dead?**

Help us that we may in turn help you and the multitude of others who should be engaged in this "most glorious subject belonging to the everlasting gospel,"

and "the Greatest Responsibility
that God has laid upon us."

We need your co-operation
and encouragement. The great-
est pleasure comes to us when
we assist others. We can assist
others better by aiding in the
salvation of the children of men
than in any other way.

A subscription to the Utah
Genealogical and Historical
Magazine is \$1.50 per year.

Salt Lake City, Utah.

we should have the professor Brigham and we go out at 10 o'clock and find no one but
the children to the first of it. Letting us change a little of it and take our way out
seeing it in our hands. These were taken when I was at the Rockwood during our night's stay
and for we there in the winter arrived to build knows my oldest girl Jane died of the
age on the 2nd. We had word for the wife of these that died on the
ring and got into our house about 10 o'clock. All our folks were sick but Mary & Susan enjoyed
their health in my country. My wife was sick about 3 weeks. Robert about 3 weeks all the rest
of the family. My father & mother & Joseph & Josephine were sick with the sick typhoid and the general
winter. Joseph for want of vegetables & living in England William my son the no one but
Joseph & Jane were sick in my house most of the winter. I sold a good deal of butter for
I gave out about 11 dollars in the spring after being in about 3 months getting me about 100 dollars
we all started for the mountains about the first of June all our expectations. Not my dream
any having been seen by one of the boys. Hunter Morgan loaded with 8 large boxes
Morgan's dog to split with the boys & dogs to make horse dogs. The wheel & running
over his breast and leaving him dangle on the ground. There was on the wagon 4 people
about little we called when Charles & Richard & Edmund to him & put them
of his reputation with but back & cloth. And then coming on with the horses
to his three legs & 3 rights. Keeping the blood in circulation so that he never got
back by the two means & the boys & I with him was his back by the two means
Bridges, Hunter 100 & 200. Joseph 50. Being at 10 o'clock we had to them good & less 38 dollars
can making up and shaping my wife. Putting the horse team at the very end to over the dog
Mountain coming in the valley on the first of October & I thought we were on the 5th of it & before
day on the 6th. You can see what the Lord can do to them. Then the back for the mountain
we had the horses time on the way of any other company having week teams & heavy loads
of to have 15 months. Overcoming my horse but we got to Denver as I could
sell them some corn & bring them through as I could not take any less without them
and by feeding them a few barrels I got them to sell the rest to 3 horses that I wanted
some of them & then could sell my own & eat them but could not sell all my horses. They
the hand of the Lord were over us and we got safe to the place of our destination

So the teamster who was with me at the time of the
the horses & the driver through mud & ice for about 45 miles & the
he went the better they got. I do not know of seeing even one horse
horses & he left me at a village some 20 miles from Detroit some 1st
hundred & ten miles from where I had started without a horse or any
refreshment as far as I was concerned. He never of without even
asking me for any or giving me anything. I think from him he sent a man with
me. I went I got to Detroit & took the
train for 30 cts. I went from Detroit to
and came to the village in 12 hours from Detroit 140 miles from
Detroit & 950 from home. I think I hope I went on my way regarding
changing my name almost every day. I could not be true to my
or went down to the point where I was staying. I was staying at the place
where I had been killed by a man named John who was going to the
State Park taking with me John Brown in going by the way of the
at 10 from home expecting to see my father but he was not on the hill
and while we went into a town to engage a horse they were by & when we came down to the river
to fish we found them fishing their horses making ready to start we had a happy meeting the first hand from
all of my family & relations we still enjoyed the first spirit of the work we then took our way
for more nothing happening worthy of notice only a few circumstances which we took this sympathy
the time did not agree with them only when they were in the river we would have to start
I think if they did not leave we would be in good health & spirit from the time we had started
for the Rocky Mountains we had 3 weeks & started in the morning, everything in time of going
Rogers & his men from where they had made farms and left them who were not happy to go on we
arrived at the city of New York from the city at the city of New York from the city of New York
from the government for 500 men which was raised in 1 day or two leaving women & children
on the way & some sick we engaged the river & camped at a place called called West for a day
two months when I had my own horse & a horse for a partner to make a journey and I took
that we did not need in the up the Mississippi River in the Anglo as they looked out at the
on the Mississippi distance & started to it calling it about 20 miles
from called back. I think my horse was very good & I could not
out the hills and got it out to the top of the mountain. The horse could not
the mountains we had seen before & we were going to be given after we went over the mountains.

[illegible]

all farewell leaving the home of my youth where I had some happy days
as you so gentle happiness goes & where I had most many & bright
thrust & I saw a great deal of hard work leaving my wife sick & tired
meeting in the road that he would preserve them & me until we had
met again I traveled 31 miles in the night starting after dark
I arrived at Port Armon at day break on the Banks of the
River at Clear which Quebec Canada from the States
I traveled towards the River in hopes to cross the ice being about the first of Nov
But to my surprise I discovered the ice had given way and it was crawling
out of Lake Huron so that the cakes of ice was floating on their edge
sometimes 10 ft high there was a little piece of the Bay that had not broken up the
already started on this floating on the Dickinson I was placed in leaving my
family and my country as an exile not even knowing what was to befall I
found as it were of steam I raised my head and found where I was walking
was all in a tremble and in casting my eyes to the River I saw the timber
at intervals I could see the people on the opposite side at Black River
village having gathered by hundreds and so they gave me a cheer the ice the
would I went almost in deep wearing knickerbocks & hats for me to stay
back I could see down the River for about 10 miles and it was all in motion
I stood and looked the scene with intense interest when the evening of the storm
ice was raising the level ice under my feet & I was obliged to retreat to a
for safety & then I could see the people on the opposite side of the lake
now some 20 ft high I could then look over the rising ice which was then
young at the rate of 2 ft in 10 minutes and I was at least that in the whole the
River around that place I slept up the stairs to a John Johnson to take
him to watch and to me except so that he could tell what became of me and
I had only 50 dollars in my pocket I had him in my pocket I had only 50 dollars
I told him I was going over days I would have to be in the bank of the river
I thought I had the God of heaven I had the God of heaven I had the God of heaven
of my friends I had and as I am leaving from my country so that I can go
if they come and I have not I am sorry but I have to keep my countrymen

had but I was forced to leave only some half a mile from the first the father having done 5 miles from there he was not found for about eight days

he lay but older on the morning of the night and was found on the

not being disturbed by birds or water

James his William's daughter was married to Samuel Aspinwall on March 3rd 1852

my second wife Eliza's son (Robert Aspinwall) first of son Robert by Anne

was born on Mill Creek just like County in my house on Mill Creek at 1853

when his 2 brothers were born same County March 26th 1855 this is at the great Grand

children next of little girl John Gordon that was sister to Death left home

Emeline Elizabeth born Mill Creek & I County

having feeling of that history of my Relations I will now return to my own history

My son Frederick died and is buried in the same place he was born & buried died April 18th 1855

in winter quarter 1855 of David's living (same) Day of the Month and born

only one Day of the Month's difference two years of that we having found the

Monroe held out or give away all his property consisting of 2 good first Mills

one saw Mill & 500 acres of land only getting for our first first & saw the

1600 Dollars it being valued at 6000 just before I joined the Church I had

the others for 2200 Dollars worth 5000 leaving all out standing debts

also of contract of 1850 that had cost me over 1000 Dollars besides

my children work having done with two other partners because they could

not carry on the work they being bound under a penalty of 1200 Dollars to be

them in the River by a certain Day by me going in they were to give no

time but on hearing that I was going to leave they drove out of Ohio for

me so I left 6000 Dollars all called on the bank of the River at the

price of 50 Dollars for 1000 leaving him about half the expenses

and concluded to leave it all so that they expected to take all my means

I had to share with & so the best wished them to destroy me if they could

but I put my trust in the Lord and started from where I was ten miles

south of my old Mill coming to my Mother's house and Brooming it

while that my old Place was not out ten miles to my father's where

off my father was & my wife & family & about 2 hours riding from

Present with him to the city on the 22nd helping him to sell the land. Sent to the city to return to my brother William he seemed clearing land in Warwick found good but they
Kington helping to raise the land sent from the city to that place where
William was born in Warwick & William my brother could not wait on account
of his wife having the illness. The five and six hundred acres were cleared through his father
was descended to 2 acres his father was cleared through his father's land. He took
partly buying land his father was gone on account of the land. He took
her back 500 miles to his father's land 3 miles at home so that they
could take care of her until his children would grow up to take care of her
as he had just to make her all the time to keep her out of the fire. She got
entirely out of her head & would run to the woods one day as they had a large
kettle of water on the fire. She took it & fell into the kettle of boiling water
sticking herself so that she died in a few days leaving William his son
in the charge of his grandfather & grandmother where he has remained
ever since being now 22 years old or near it after his wife died he married
my sister Dittie Janet Livingston his first daughter Lyden was
Married to a man in Warwick County Kent Western District Canada west

 in Lake Lake City he died on his journey to Canada in the 23rd
 of April 1857 with a horse coat and a couple of legs

[illegible]

with the Old man & then got it all up the men all left next day so that went
Knew knew me & half mile to a plenty where a man & his wife lived when I got
The men went out to work for provisions only coming home on Saturday Night I lay
down in 1 day 500 miles from home to 30 miles back in the week when I again went
work. When the men & myself changed work we stuck up a boat on arms &
and slept under it when the water would get all night all around us he would have
kept awake let no one else be I would say not longer & go to sleep so through the
boat the men having nothing but the bed clothes we had carried on our back I have
to be on my back & travel 50 miles a day for several days together all I used to
and I lay down in a black for several weeks and when shopping in the week we
in a day or two and would sometimes have a little rest I had only got one week from
my first the first time when I sent my letter on first of my great the and was
needed at myself that I had would work not matter how it went and I did not feel
can have it continued. I was under the time came to go home so I started I think
over 300 miles of the 500 that lay between me & my wife and so that was the only time
I ever was home sick but I thought if ever I got back I would value it home
but I got over it & never was troubled since after spending the winter among my
old acquaintance shopping ten acres of heavy timber & cutting & selling one hundred
four days to River Mouth I started again to the west where within two weeks
and raised some cash when in fall my father & all the rest came after us do money
we were all in winter I stay at home & took jobs occasionally of shipping fire
2 years when I went & looked out of place to build a mill of mill from where we lived
and came by the Millwright telling me that by having 400 dollars he could start a
mill so but the Patent was cancelled my own on account of being left before it was
all went so that in the spring after there was a prospect of once I had to come out once only
the same I commenced on the 27 of March & commenced going on the 19 May July
the Patent cost 3800 dollars but I accomplished the work only 1 year only 1 day
and then I started in the water and out of the water to overcome the expense later
the mill right & I alone so that all the sleep I got was in a dark with
the supplies would hold out and by then got clear of debt I could not
will and got along well having 3000 dollars returned

after this we began to make some small mills and the settlers got to timbering the country
but the Canada Whistle almost run them out what commenced first & even got fairs
and we set them back well never forgot how I had to at last I got to drive
of that country that left and took land in the township of Newark having never
left my father's house before I traded 1000 acres on foot and got a little
the first building to return to my Brother William he got married in January
1829 to a girl named Ann Mackey Robert his son was born April 3
1830 John was born Oct 24th 1831 Jane was born Augt 21 1835 all in this
set but his wife being subject to convulsions he had a hard time to clear
up from on the banks of what was called that lake on the small opposite working for
timber heavy sand along and the thistles growing thick & fast after the lake
wood timber was cleared up so that the people could not make out the people
thought of leaving it good many of them this was the case with William
although we had good times & hard times mixed we used to take the friends & go
to the lake & clear the river into the water and then follow them with a Birch bark
canoe and then either shoot or kill with clubs we used to go out at night with Birch
canoe along the river banks having the lantern in the front of the canoe and when
we would hear the deer walking we would light the candle and paddle canoe up
within a few steps the deer could not see anything behind the lantern as it
was open in front facing him so that we could shoot them nicely we used
to go out in the wood and shoot they called still hunt this was best when there
was a light river other times when the river was deep and I have canoe
and I would come on the river we would take old water the old river & kill
two or three of them so we used to have about that we killed as we could change
the plenty of meat William was a keen hunter and killed a great many deer & some
other game birds & great variety other deer but after I left and went back to visit
William his wife & children started to the new house 5 or 6 miles late in the fall winter
the spring & then followed I have some hard times that first summer after
travelling on foot hunting I wrote to him but he never answered I to clean his land
I went to St Albans 2 miles every night for about 3 weeks so as to have something
then one night after coming I shot my first with the axe I ran the two miles

winter with a back load of provisions when one place my father went (in the winter) +
 usual and sitting in the shore and to William we will have back from the Centre but when
 the car was called it was frozen it must have been very cold as the whiskey very strong many drinks
 made I have had them tell in their day that all the emigrants that came at that time did
 handshakes to indicate that the common situation supposed in New England as they went off in my
 map inexperienced they could not chop and had no team either to log or go to mill or to share
 after the dogs by hand could all their rule on their shoulders made bridges carrying the dogs and
 their dog houses they would get together and from 4 to 16 men would put handshakes under
 it & carry it the building rising down long log buildings 30 or 40 ft long in the way
 my father cleared 10 or 200 & had it in each the first year this way & continued to do
 so for about three or four years before we had I learn my brother William went to the
 every cannot & worked out & go money and brought home a spoke of two year old deer
 after being some three years in the country my father brought off a lot of deer skins
 having cleared some 100 acres by hand of heavy timber & good deal of hemlock carrying
 all the grain to mill on their back one year all the mills we passed up on account of a log
 full and had winter getting in to getting the mill and paid 50¢ up with a truck load
 and then did not get my father brought a Deffen. Mill for 2 Dollars and a pair

ground all on it for over 2 years I have struck it with 2 or 3 almost 100 ft of
 firing but here we got it we lived in winter in better or painted shacks
 with which we had thing the dog to eat my father James took sick
 for some months the look sick and last day told her mother that
 she must go to work other fathers would be angry so my mother
 came out & told us she never had her services any more the
 lived about 3 weeks the night before she died they were leaving
 with from a tea kettle on her head she said let me lie by
 the side of the night I will be at the top of the hill
 and as she said at midnight she went to rest leaving
 that time we could not get any John or there but we got
 a little corner about a fine grain the land is that
 from the creek such things as that but she had no other value

But times get soon dreary because Bull & The People get dissatisfied with the
Government. Meetings were held even privately in our house or wherever. Kenneth
after of course took ^{at that time} ~~part~~ in the State of New York when someone wrote to him about
to find to avoid that time although opening, I still remember the first demand of
Slaves Rights of my Brother William when it seemed to me at Washington as the
step of Kingsley but soon from our the demand of laws opening & sending along the coast
of the English demand & the emphasis of the King's letter, the King's letter as the emphasis
we were William has sent it without knowledge of the President it was now for
after the Radical was defeated at the State. The Government took active measures to show
that it could with Americans and many honest people were sent away to prison that the
we had in this affair because of information given by Henry Thoreau the Editor of the Commonwealth
then before in a few days by Henry Thoreau his great wife was hurt & he asked the sympathy
on my father by informing that he was ill. He was taken from his house & made a prisoner
in the King's castle to await his trial when the Judge's words came in our words that he
when Aaron & Henry was condemned & living & believed and a great many demands
to the King's day my father was taken without any one to bring any thing against him
I remember the day he came back when Charles came to see him. I was then only 5 years
old & my father took me by the hand & we met him on the Green green outside of the
town my father had often talked of going to America but after the voyage he told
my father that he would go if he had to leave Charles & work his passage before he
would stay to be a negro slave his house & on that & no doubt he would go with
he could enjoy liberty. He as I mentioned in the first of this he left to find a new home
like John & his family of old and although not feeling as excited like them the
heart of the bird was in it so we have been since after he found in America his work
found in Baltimore. I think the government giving it free but it was generally risky
and also of great importance of the Empire of the King's to long & I think of the
other things and would up their share. I have left for the other other's word to clear
this from after means no giving down but my father & William & Henry & Charles from
found their company place to look down that day and took land 7 miles back in
the woods & covered with a dog cabin & packed all their things on their back
westward of Red River through the mountains & over the mountains & all their things
I think I have & every thing can have my father & William & Henry & Charles in our

sitting of John & the Rev. until we arrived at Report above Mankato where he
 leaving of the river of 25. Then he had left the same way as my father and to go
 and to the country and it was to have a house for them. He started on parting
 72 miles from where he took up home and what we there at last Report. Attention the
 the more particular as that was a time long to be remembered we traveled 11 miles when
 my brother William was working for John by the house of 24 and we got there at noon
 when the men was coming in to dinner and the women of the house working to be
 then I met called William to be which of these when was William he being about
 18 years old and had in one year grown so tall that before they came to the river the
 took John to him his clothing considerable improved by when his brother
 Bennett or Cap. looking in it his face was much improved and the did not at first
 know him he is now called not looking we was in America but in
 turning around they all came into tears and although only 5 years of age we never
 forget this meeting and my father we had a good time of it to be sure & that
 night got home so William from Report William leaving his & came home with us
 my brother came on in his back some after time & John. came me home of the
 and once or twice my father came on in her back when some of the best
 corner back my brother for her which she had earned most of the time he being
 2 and half year old and not even yet, arrived in Dakota where my father was
 had that and took care of the place while my father was come to meet us there
 coming out of the little boy John had in coming & then through the narrow the
 first left to meet us but coming up with her little boy John on being no other
 in to town & returned to Henry, where we all came up and had another joyful time
 of some where Liberty & Peace & a prospect of Henry & a free home of our own
 was of my that had every thing after the long absence which was mixed with
 of many hopes & fears. He returned to my father he was thought of good by John
 King the youngest of children his father being an elder in the Presbyterian church
 he was bound out to learn to be a black carpenter & continued working for many years
 when young after being allowed four years he continued working for Henry & Jacob
 keeping to their father the same. Will from the General Company when he
 of the same of 24 years of age. I was left of Henry & Jacob when he was
 for one year but he had no other things but the
